

Every Vote Counts!

An **Independent** Authentic  
Election Information Platform.

Poll, Data, Candidates, And Choices –**Everything** In One Place

# ABOUT US.

Election Bangladesh is an **independent civic technology** initiative dedicated to making election-related information accessible, structured, and understandable for everyone.

## Our belief is simple.

Democracy functions best when voters have access to clear, reliable information. Election Bangladesh exists to make that information easier to find and easier to understand.

## What We Are **Not**-

- ✗ A political party
- ✗ A campaign tool
- ✗ A partisan media outlet

# MISSION

To collect, organize, and present election-related data in a clear, neutral, and accessible way so citizens can understand candidates, constituencies, and manifestos before voting.

# VISION

- Every voter can easily explore candidates and constituencies.
- Election information is transparent, comparable, and fact-based
- Technology strengthens democratic participation, not political influence

# Problem Statement.

Bangladesh has a large and active voter base, yet reliable, structured, and accessible election information is fragmented.

- Voters struggle to find verified information about candidates in one place
- Manifestos are scattered, lengthy, or unavailable to the general public
- Constituency-level data is hard to explore or compare
- Younger and first-time voters lack neutral tools to understand choices
- Online political information is often biased, incomplete, or misleading

And the **Results?**

Many citizens vote **DO NOT VOTE**

**VOTE** with limited information, reducing democratic effectiveness.

# Our Operations. ● ●

This is what we are up to-

## Candidate Consultancy

- Biography. Documentary. Manifesto.
- Action Timeline & Strategic Planning
- Digital Marketing and PR Support
- Full-Stack Digital Portfolio of Candidates

## Constituency Explorer

- Interactive map of Bangladesh
- Constituency-level data
- Candidate lists per seat
- Easy navigation for voters

# And More.

Election Bangladesh will also cover-

## Manifesto & Issue Coverage

- Simplified summaries of party manifestos
- Issue-based breakdowns (education, economy, governance, etc.)
- Neutral presentation without endorsements

## Articles & Civic Education

- Election explainers
- Voter guides
- Contextual analysis (non-opinionated)

# Our Goals.

To become Bangladesh's most trusted election information platform, evolving into:

- A permanent civic data repository
- A research and reference platform for journalists, students, and citizens
- A scalable model for future elections
